

# Skype for Business Recommended Equipment List

Below is a list of recommended equipment to be used with Skype for Business for making telephone/video calls and conferences/meetings. The list will be proactively updated with new additions and updated models once evaluated.

For mobile devices you can use the built-in camera and speaker or use the headphones which come with the device.

If you would like to order any of the equipment listed please raise a ticket using the IT Portal <https://itportal.sunderland.ac.uk/>
